

# Web App for the Dyfi Wildlife Centre

Michael Made 04/02/20

Project manager/  
Centre contact

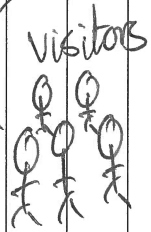

System for  
showing details  
about the centre

Used by my  
volunteers

I want it  
to have a map  
showing information  
about the nature reserve.

I want to see  
where things around  
me are

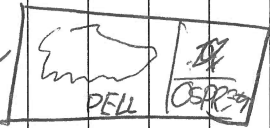

visitors

I want to learn  
more about the centre  
and its activities

I want to be  
able to see the  
ospreys live on a  
webcam.

I need a  
good database  
to store lots of  
different info

Volunteer

I may not be technically  
trained; I want a user-  
friendly interface

I want to keep information  
about our ospreys.
